Re: Locally Funding Agreement between the State of Florida
Department of Transportation and the City of Daytona Beach

Action by the City Commission is requested for Commission approval of an agreement with the Florida Department of Transportation for the design and future construction of improvements on East International Speedway Boulevard. The agreement will be a locally funded agreement between the City of Daytona Beach and the State of Florida Department of Transportation. The action will allow execution of an agreement memorializing the previously approved City Commission action agreeing to provide funding in the amount of \$750,000 to advance design and engineering work associated with the East International Speedway Boulevard improvement project.

City Commission approval is recommended by staff.
