Statutory Requirements

Chapter 171.044 of the Florida Statutes contains specific requirements that govern the process of voluntary annexation. This statute requires a brief general description and legal description of the area proposed for annexation as well as the provision requiring notice to the County Manager on behalf of the Board of County Commissioners. The statute prohibits voluntary annexation when such annexation results in the creation of enclaves. This sites are adjacent to The City of Daytona Beach and reduces existing enclaves.

"Contiguous" is defined in Section 171.031, *Florida Statutes*, that a substantial part of a boundary of the territory sought to be annexed by a municipality is coterminous with a part of the boundary of the municipality. The subject property's boundaries are contiguous to The City of Daytona Beach.

"Compactness" is defined in Section 171.031, *Florida Statutes*, as "the concentration of a piece of property in a single area and precluding any action which would create enclaves, pockets, or finger areas in serpentine patterns." The properties proposed for annexation are compact and the action does not create any new County (or City) enclaves.

The sites must be contiguous to the City and they conform. The parcels must be reasonably compact and all owners must join in the request. This annexation consists of two parcels of approximately 13.67± acres and one property owner. Notice must be published at least once each week for two (2) consecutive weeks in the local newspaper. Once the Ordinance is adopted, it must be filed with the Clerk of the Circuit Court and with the County Manager.

Notice will be provided to the County as required by statute, as well as legal advertisements.

Municipal Services

The City of Daytona Beach Utilities Department has reviewed the application and indicates the City has sufficient Level of Service for water and sewer for 2441 and 2501 Bellevue Avenue. In order to connect 2501 Bellevue Avenue, a County Use Permit would be required for a private force main and manifold into the existing force main connection at 2441 Bellevue.

Included with this report are maps that identify the project locations, zoning classifications and future land use designations. An application is currently in process to amend the existing land use and zoning designation of the properties from a County designation to a City designation.
