

The City of Daytona Beach Utilities Department

TO: James V. Chisholm, City Manager

FROM: Shannon Ponitz, Utilities Director *SJP*

DATE: December 21, 2018

**SUBJECT: Williamson Blvd. – Dunn Ave. to Mason Ave. Reclaimed Water Improvements
- Bid No. 19083**

REQUEST

Utilities Department requests the City Commission adopt a resolution awarding Bid No. 19083 to Hazen Construction, LLC, 1599 Tionia Road, New Smyrna Beach, FL 32168, in the amount of \$988,775.00.

PURPOSE

The purpose of this project is to construct approximately 2,200 linear feet of 20-inch reclaimed water main on Williamson Blvd between Dunn Avenue and Mason Avenue to provide a continuous reclaimed distribution system to meet future development needs.

CONSIDERATION

The Williamson Blvd. – Dunn Ave. to Mason Ave. Reclaimed Water Improvements Project consists of the installation of approximately 2,200 linear feet of reclaimed water main. The installation of the reclaimed water main will close two gaps in the existing reclaimed system, thereby providing the City with a continuous pipeline between Dunn Ave. and Mason Ave. Construction of this project will improve reuse water distribution to meet current and future reuse demands, including demands from Tomoka Town Center, B Braun, Latitudes and future developments within the project area.

The City advertised Bid No. 19083 for the Williamson Blvd. – Dunn Ave. to Mason Ave. Reclaimed Water Improvements Project on October 11, 2018, and received the following bids on November 13, 2018:

	Bid
DB Civil Construction	NON Responsive
DBE Utility Services	NON Responsive
Hazen Construction, LLC	\$988,775
TB Landmark Construction	\$1,046,319

At the time of the bid opening, DBE Utility Services was found to be non-responsive due to submittal of a 5% bid bond versus the 10% bid bond that was required. The remaining bid submissions were reviewed for conformance with the project requirements. The project documents required bidders to submit five successfully completed (not earlier than 2011) open cut pipeline (potable water, reuse water or wastewater force main) projects being 20-inches (min) in diameter and 2,000-feet (min) in length. After review of these project references, it was found that

DB Civil Construction did not meet the minimum requirements and was therefore subsequently declared to be non-responsive. Therefore, Hazen Construction, LLC was evaluated for bid responsiveness and was found to be the lowest, best responsive bidder, with a total cost bid of \$988,775.

FUNDING

Funds are available in the Water and Sewer Grant Fund No. 414-610000-536-565000-611817 (\$326,295.75 - SJRWMD Cost Share Agreement Contract #33294) and the Renewal and Replacement 8% Fund 428-610000-536-565000-611713 (\$662,479.25).

RECOMMENDATION

Utilities Department recommends the City Commission adopt a resolution awarding Bid No. 19083 to Hazen Construction, LLC, 1599 Tionia Road, New Smyrna Beach, FL 32168, in the amount of \$988,775.00.

SCHEDULE

City Commission Approval – January 2019
Construction Completion – September 2019
