
MEMORANDUM

Daytona Beach Fire Department

MEMO TO: Joanne Flick, Purchasing Agent

FROM: Dru Driscoll, Fire Chief 

DATE: December 26, 2018

SUBJECT: Purchasing Standardization: ZOLL Medical Corporation

To seek improvements in the efficiency and effectiveness, the Fire Department requests to continue to purchase cardiac defibrillators and ZOLL branded equipment from ZOLL Medical Corporation following the standardization provision of the City of Daytona Beach Purchasing Code.

The Daytona Beach Fire Department has a long history utilizing ZOLL cardiac defibrillators and accessory products. This history allows for standardized training amongst our employees, improved maintenance, and reduces our need to inventory an assortment of accessory products. This standardization request is for ZOLL Medical Corporation defibrillator products and services which are considered sole source and are required by the terms of the product warranty.

Thank you for your consideration.
